Release 0.1

Denis Arnaud

Sep 22, 2023

Contents

1	Getting started	3
2	Commands	5
2.1	Syncing data to S3	5
3	Indices and tables	7

Contents:

CHAPTER 1

Getting started

This is where you describe how to get set up on a clean install, including the commands necessary to get the raw data (using the *sync_data_from_s3* command, for example), and then how to make the cleaned, final data sets.

The Makefile contains the central entry points for common tasks related to this project.

2.1 Syncing data to S3

- *make sync_data_to_s3* will use *aws s3 sync* to recursively sync files in *data/* up to *s3://[OPTIONAL] your-bucket-for-syncing-data* (do not include *'s3://'*)/*data/*.
- *make sync_data_from_s3* will use *aws s3 sync* to recursively sync files from *s3://[OPTIONAL] your-bucket-for-syncing-data* (do not include *'s3://'*)/*data/* to *data/*.

CHAPTER 3

Indices and tables

- `genindex`
- `modindex`
- `search`
